SUMMARY

Full-stack developer with 5+ years of experience building scalable production systems across talent platforms, construction management, and legal technology. Specialized in Node.js, TypeScript, Go, React, and AWS, with strong experience designing matching algorithms, real-time systems, and cloud-native architectures.

SKILLS

Programming languages	Javascript, TypeScript, Python, Go
Frameworks & Libraries	NodeJS, ExpressJS, NestJS, NextJs, JQuery, HTML, CSS, SASS, Tailwind, Shadcn, Bootstrap, ReactJS, Redux, Jest, Gorm
Database & others	MongoDB, PostgreSQL, MySQL, DynamoDB, Prisma, Sequelize, TypeORM, Mongoose, Docker, Cloudinary, S3, EC2, ECS, Cognito, Lambda, CloudFront, CI/CD, CircleCI, Cloudflare, Redis, Git, Jira, RESTful API, GraphQL, Elastic Search, Nginx, Scrum / Agile
Soft skills	Teamwork, Problem-solving, Time Management, Adaptability, TOEIC 650

WORK EXPERIENCE

Mid Fullstack Developer - Hopee JP

Mar 2025 - Present

Irohana Match – Talent Matching Platform (Aug 2025 – Present)

- Built and integrated features from scratch, utilizing Claude Code throughout the development process
- Designed the database based on Figma specifications
- Implemented real-time notifications and live data synchronization using WebSocket
- Designed and deployed containerized infrastructure on AWS ECS/ECR with Cognito authentication
- Reviewed pull requests from team members

Tech: NestJS, TypeORM, PostgreSQL, React, TanStack Query, WebSocket, AWS ECS/ECR, S3, Route 53, Cognito

Stella Cloud – Construction Management System (Jul 2025)

- Maintained and enhanced a microservice-based platform managing construction, electrical, and plumbing projects
- Developed a worker scheduling engine that allocates workers based on availability and project timelines
- Improved calendar management system to support complex multi-worker scheduling scenarios

Tech: Node.js, Microservices, DynamoDB, React, Nginx

Legal Docs – Legal Document Platform (Apr 2025 - Jun 2025)

- Built a legal document marketplace for the Australian market from initial architecture to production deployment
- Developed full-stack features including document management, marketplace workflows, and user access control
- Implemented CI/CD pipeline and deployed production infrastructure on AWS
- Reviewed pull requests from team members

Tech: Node.js, Microservices, Mongodb, React, EC2, Stripe, Hostinger

Mid Fullstack Developer - Merkle UK

Dec 2020 - Jan 2025

Giant Bicycles (2 years)

- Optimize increase page load speed by 10% (Desktop, Mobile) and speed up product search by 10% with Elastic Search.
- Reduce load from database side using Redis.
- Integrated payment method PayPal, Stripe, increasing conversion rate and successful transactions to 99% successful transactions
- Implemented: GA4 / GTM, PIM, Email marketing, Google AdWords, Loqate, Growthops
- Write documents for customers
- Handle for 8 sites (UK, FR, GE, SE and Netherland, Belgium, Denmark)

Tech: NodeJS, Typescript, ExpressJS, PostgreSQL, Prisma, Jest, Elastic Search, AWS S3 + CloudFront, Redis, HTML, CSS, SASS, Chart, Bootstrap, React, Microservices.

Zoopalast - Sell movie and event tickets online (1 year)

- Develop more features.
- Speed up page load and user experience 15%.
- Writing the technical issues in English
- Build customer management and content management systems
- Write documents for customers
- Build a customer notification system

Tech: NestJS, Typescript, PostgreSQL, TypeORM, Redis, AWS S3 + CloudFront, Kafka

Studysail - Online courses (1 year)

- Upload videos to Cloudinary.
- Create a course favourites list.
- Build a website to manage courses, customers and sales.
- Integrate with payment PayPal.

Tech: NodeJS, ExpressJS, MongoDB, Mongoose, Javascript, Cloudinary

Fresher Fullstack Developer - HiCAS

Dec 2019 - Aug 2020

Ting Building Management (8 months)

- Build app building management using React Native.
- Build API with NodeJS, GraphQL
- Build website management using React.
- Handle web responsive.

Tech: ExpressJS, NodeJS, MySQL, Sequelize, Javascript, React, React Native, HTML, CSS, Bootstrap, GraphQL

EDUCATION

2016 - 2019	University of Science (HCMUS) - Software Technology (GPA: 65%)
Feb 2018 - Aug 2018	Information center of the HCMUS: o PHP (GPA: 80%) o Front End: (GPA: 90%)
Feb 2019 - Jun 2019	Information center of the Khoa Pham - MEAN (GPA: 90%)
